24	Smooth-On
24-26	Eager Plastics
26	Blick Art Materials
27	Polytek
28-30	Alphabetical Index of Products Included in this Handbook

YOUR GUIDE *to the* SPRAY BOOTH MATERIALS HANDBOOK

Compiled in this handbook is a summary of guidelines for safe material use and handling in SAIC Spray Booths. For a full description of manufacturer specified safety guidelines, please read a Material Safety Data Sheet (MSDS) for each product. A list of materials not approved for use is also included at the back of this handbook.

Respirator Required

Gloves

Chemically resistant gloves (example: Nitrile gloves) are required.

Apron

Wear Apron or other chemically protective clothing that will reduce the potential for clothing penetration and skin exposure.

Goggles

Eye protection with Splash Shields required.

If you would like to use a material not included in this handbook or have other questions, you may send an e-mail inquiry to Spraybooth@saic.edu. Each year we will continue to research and add new product lines to this handbook.

Ingestion Hazard

May have corrosive effect on mouth and stomach - do not ingest.

Sensitizer

Contains a chemical known to cause an allergic reaction after repeated exposure

Carcinogen

Contains known or potential carcinogen(s).

Hazardous Waste

Must be disposed of as Hazardous Waste.
